PROFESSIONAL SUMMARY

Backend software engineer with approximately 4 years of professional experience building web services and internal applications. Experienced with JavaScript, Node.js, REST APIs, SQL databases, Git, and application deployment. Comfortable designing API endpoints and database-backed services, with some hands-on exposure to cloud deployment and CI/CD workflows.

TECHNICAL SKILLS

Languages	JavaScript, TypeScript, Python
Backend	Node.js, Express.js, REST API development
Databases	PostgreSQL, MySQL, SQL, relational database design
Cloud / Deployment	AWS EC2, Docker, Linux, basic CI/CD
Version Control	Git, GitHub
Other	API documentation, unit testing, Agile/Scrum

PROFESSIONAL EXPERIENCE

Backend Engineer — Pacific Digital Solutions

Port Moresby, PNG | Jan 2023 – Present | 3 years 9 months

- Develop and maintain Node.js and Express.js backend services supporting customer-facing web applications.
- Design and implement REST APIs for authentication, customer data, reporting, and application workflows.
- Work with PostgreSQL and MySQL databases, including schema design, joins, indexing, and query optimization.
- Use Git and GitHub for source control, pull requests, branching, and collaborative development.
- Deploy backend services to Linux servers and AWS EC2; maintain Docker-based development environments.

Junior Software Developer — Kumul Systems

Port Moresby, PNG | Apr 2022 – Dec 2022 | 9 months

- Built JavaScript backend features and internal REST endpoints for business applications.
- Worked with SQL queries and relational database tables for reporting and application functionality.
- Participated in code reviews, testing, Git-based development, and application releases.

EDUCATION

Bachelor of Information Technology — Papua New Guinea University of Technology

Lae, PNG | 2018 – 2021

SELECTED PROJECT

Applicant Scoring API — Developed a prototype Node.js REST service that stores candidate profiles, job requirements, and scoring results in PostgreSQL. Implemented endpoints for candidate submission, screening results, and recruiter-facing score retrieval.
