PROFILE

Senior product designer with 8 years of experience shipping B2B and enterprise software, specializing in design systems, prototyping and research-driven product decisions.

EDUCATION

Master of Design (MDes), Industrial & Interaction Design

University of Technology, Sydney — 2016 – 2018

Thesis on modular design systems for enterprise software.

Bachelor of Arts, Visual Communication

University of Papua New Guinea — 2012 – 2015

SKILLS

Figma · Framer · Design systems & tokens · Prototyping · User research & usability testing · Cross-functional collaboration · Design mentorship · HTML/CSS fundamentals

WORK EXPERIENCE

Lead Product Designer

Northfield Software — 2021 – Present

- Led end-to-end design for a B2B workflow platform used by 40,000+ enterprise seats.
- Built and maintained the company's first component-based design system, cutting design-to-dev handoff time by 35%.
- Ran quarterly user research studies that directly shaped the product roadmap.
- Mentored two mid-level designers and ran weekly critique sessions.

Senior Product Designer

Vantage Analytics — 2018 – 2021

- Owned UI/UX for a SaaS analytics dashboard from early discovery through shipped release.
- Partnered with engineering to define reusable Figma-to-code components.
- Facilitated stakeholder workshops to align product, design and engineering on scope.

Product Designer

Coral Studio (Agency) — 2015 – 2018

- Designed interfaces for 6+ client products across fintech and logistics sectors.
