PROFESSIONAL SUMMARY

Junior software developer with 2 years of professional experience building and maintaining web applications. Strong hands-on background in Python, Django, PostgreSQL and Git, with experience working in small agile development teams.

EDUCATION

Bachelor of Information Technology — University of Papua New Guinea, 2022

TECHNICAL SKILLS

Python — 2 years of practical development experience using Python.

Web Development — Developed internal and customer-facing web applications using Django, Django REST Framework and React.

Version Control — Daily use of Git and GitHub for branching, pull requests and code reviews.

Databases — PostgreSQL and MySQL.

PROFESSIONAL EXPERIENCE

Junior Software Developer — **Pacific Digital Solutions** — 2024–Present

- Develop and maintain Python/Django applications and REST APIs.
- Write automated tests, troubleshoot defects and participate in sprint planning.
- Work with three other developers and a QA analyst on application releases.
- Explain technical changes to project managers and business users during demonstrations.

PROJECTS

Customer Service Portal — Built Django backend services and React interfaces for customer requests.

Reporting Automation — Created Python scripts that reduced manual spreadsheet reporting.
